John Claude Krusz, Ph.D., M.D.

Private Practitioner

Anodyne Headache and Pain Care

John Claude Krusz, Ph.D., M.D., is medical director at Anodyne Headache and Pain Care in Dallas, Texas. He has been in private practice in neurology since 1987, specializing in headache, pain management, sleep, mood and neuropsychiatric disorders.

Dr. Krusz received his Ph.D. in pharmacology at the Downstate Medical Center at the State University of New York and his medical degree from the State University of New York at Buffalo School of Medicine. He is board certified in electroencephalography (EEG), pain management, and quantitative electroencephalography and is a diplomate of the American Board of Neurology and Psychiatry, the American Board of Forensic Examiners. He has a UCNS subspecialty certification in Headache Medicine and serves on several advisory boards for headache, pain and various neurological speakers' bureaus. He is also on the Board of Advisors of the Texas Pain Society.

Dr. Krusz has published numerous scientific articles in peer-reviewed journals including *Headache*, *American Journal of Pain Management*, and *Pain Practice*. He has also co-authored a book on natural products and remedies and a book chapter about post-traumatic headaches, migraines, and sleep disorders. Dr. Krusz is a member of multiple medical societies including the American Academy of Neurology, the American Academy of Pain Management, the American Pain Society, the American Headache Society, the International Headache Society, and the National Brain Injury Association. He has presented extensively both nationally and internationally at the American Academy of Pain Management, the American Association for the Study of Headache, the International Headache Society, and the American Pain Society, among others. Throughout his medical career, Dr. Krusz has been involved in multiple scientific studies and continues to focus on migraine and other pain research.
